

CENTER FOR EXCELLENCE
IN DISASTER MANAGEMENT & HUMANITARIAN ASSISTANCE

Disaster Response & Climate Change Impact Program

Tienna Phan
Advisor, Disaster Management and Humanitarian Assistance
Tiennhan.phan.ctr@cfe-dhma.org

Mission & Vision

Lines of Effort

Structure

Activities enhance the awareness, understanding, and capabilities that help both military and civilian partners plan and conduct operations that support and facilitate disaster response, humanitarian assistance, climate change and strengthen civil-military coordination.

Quick Facts

- Located at Pearl Harbor, HI
- DoD organization
- Global mandate
- All civilian staff

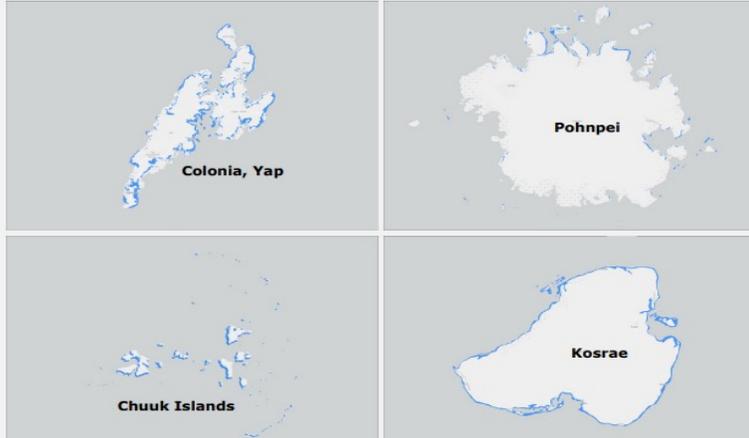

INDOPACOM Climate Change Impact Program

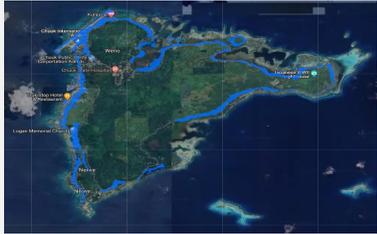

Sea-level Rise

An area exposed to the probabilistic inundation from saltwater floods caused by sea level, tides and coastal flooding combining to raise the ocean high enough to spread over adjacent land. Sea level model is based on IPCC AR6 Leading Consensus model and the RCP 8.5 emission scenario.

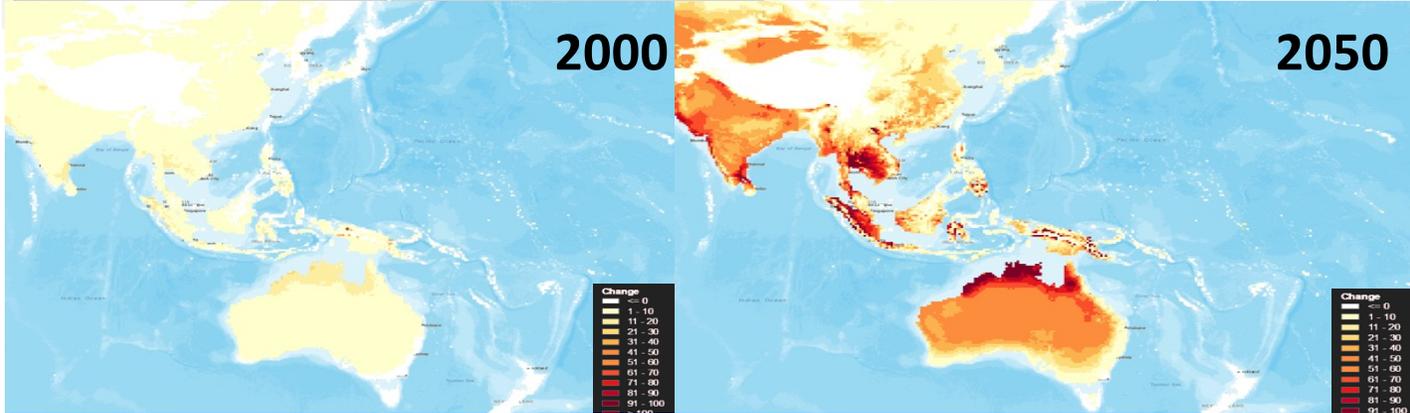

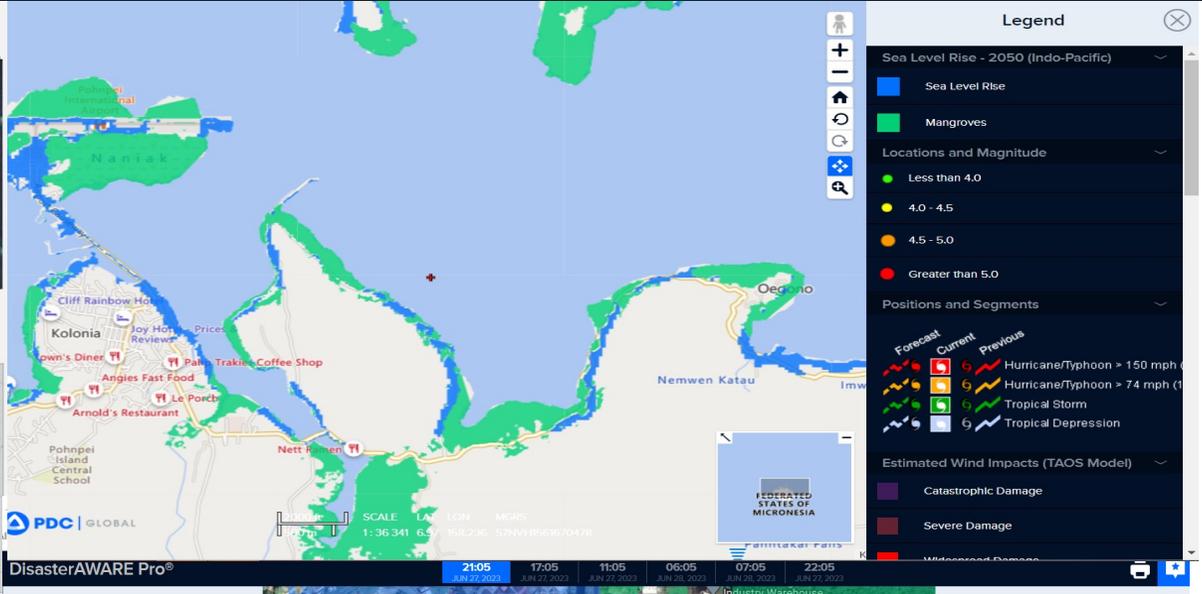

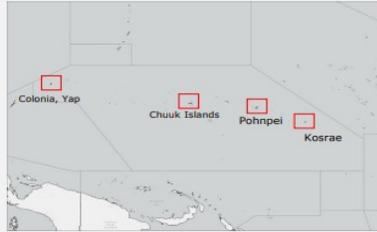

2050 Projected

Sea Level Rise

It is projected that **16,000 people** will be directly exposed to sea-level rise by 2050.

Extreme Temperature: Projected change in the number of days with maximum temperatures above 95F/35C

CFE-DMHA Continuing Support in FSM

2023

March: Commander USINDOPACOM Visit to FSM

June : CFE-DM Director Visit to FSM

August : JCM in FSM

September:: FSM Visit to US INDOPACOM

12-14 December - CFE-DMHA Climate Impact and Disaster Management Conference

2024

Pacific Partnership PP24 stops:

Pohnpei 10-20 December 2023

Chuuk January 2024

Kosrae

Yap

2025 -2026 onwards

CFE-DHMA support to FSM on Disaster Management & Climate Change

More to come
